

# Vizor Air/3X

## Powered Air Purifying Respirator

Compatible with  
all Vizor welding  
helmets.

### Reliable protection against dust and welding fumes

The system filters out up to 99.8% of hazardous particles from the ambient air and therefore meets the highest quality standard TH3 (EN 12941).

### 4-point shoulder harness to ensure even weight distribution

The 4-point shoulder harness for the respiratory protection system ensures improved ergonomics when working. This relieves the strain on the welder and distributes the weight more evenly over the upper body.

### Up to 18 hours battery life

The powerful lithium-ion battery guarantees a constant air flow of 170 l/min for up to 18 hours.\*

### Battery status and air flow control with warning function

An acoustic and visual alarm warns of low battery power, a missing or clogged particle filter for maximum safety.

### Technical data

Protection factor	TH3 (EN 12941)
Air flow regulation	level 1: min. 170 l/min level 2: min. 210 l/min level 3: min. 240 l/min
Noise level	max. 70 dB(A)
Dimensions l x w x h	222 x 213 x 92,6 mm / 8.74" x 8.39" x 3.64"
Weight	1575 g / 3.48 lb (incl. filter, belt, and battery)
Certifications	CE approved

\*Usage at level 1 with new filter at room temperature.
